2026-2027

TERMS & CONDITIONS FOR CAMPSITE USE

Welcome to Austin Lake, we appreciate you including the park in your family experience. It is our intention with these rules to answer your questions and ensure that your camping experience can be fun for the family with consideration and enjoyment of the park's guests and environment.

Not a Lease: This agreement is a contract which is binding on both the Campground ("Campground" shall mean Austin Lakes, Inc., located at the address stated above) and yourself, the Seasonal Camper. This agreement is not a lease of real estate. The Seasonal Camper is not a tenant. This agreement for legal purposes, is a license to use the property of the Campground on the conditions which are stated in this agreement.

SEASONAL PAYMENT DUE DATES SCHEDULE

1st Camp Deposit \$300.00 due October 1st: This is a non-refundable deposit. This is due to hold your lot and will apply to the upcoming season, contingent upon the February payment being received. We need to know your commitment for the upcoming season. This deposit holds your seasonal lot only until **February 20st** when the second payment is due.

2nd Camp Payment \$300 due February 20: This is a non-refundable payment. Campsite Use Agreement, rules and bill will be sent in January and needs to be returned with this payment signed and dated. If this site deposit is not received with the signed, dated Campsite Use Agreement and Terms & Conditions for Campsite Use by **February 20st**, the site reservation will be released and it will be listed as available for the upcoming season. Please notify the Campground if your plans have changed.

3rd and Final Payment due April 1:

- Payments: You may make payments at any time over the winter and this will apply to your lot but final payment is due by April 1.
- Checks are payable to Austin Lakes, Inc. and is the preferred payment method.
- Bill Pay: Camp payments may be set up with your bank through bill pay.
- Credit Card Payments: Any payments made by credit or debit card will be charged a 3.5% convenience fee, except electric. Keep a current credit card on file with CampLife.
- Electricity is electronically read and will be billed thru Camplife with only a \$5.00 meter reading fee.
- Late Payments: \$25 per month will be charged on overdue camping fees.
- NSF or Returned Checks: There is a \$35 fee.

SEASONAL SITES

The Seasonal Camper: "Seasonal Camper" is defined as a family of a husband, wife, or 2 adult partners and tax dependent children **under the age of 18**, biological children who live with each other are generally included. Unmarried children 18-20 will be included if living at home and attending college or trade school full-time. At age 21 and over or married, children are no longer included and need to pay the daily admission or pick up a season camp pass. Elderly parents cared for by the Seasonal Camper and living in the same household may be included.

The seasonal camping season is May 1, 2026 to April 10, 2027. Only one RV Unit and RVIA Recreational Vehicle is permitted on the site at any time, unless prior arrangements have been made. All NEW Seasonal Camper's RV Units must be 10 years old or newer. Park Models must be 5 years old or newer with black water tanks and valves, unless on a sewer site. The Campground reserves the right to not accept any RV Unit if we feel it is not within the overall aesthetics of the Campground.

- **The Seasonal Site is not to be a permanent residence.** Exceptions may be made for construction workers. Seasonal Campers may not use the Campground as the Seasonal Camper's permanent residence.
- One picnic table is provided during the summer season. Do not take additional picnic tables from weekend lots or shelters.

- Residential refrigerators are permitted but when possible place them in a lockable shed. They should be locked when you are not at your site. Beer and food have been stolen from the units. Electric cords are to be UL approved and in good condition. If the refrigerator is broken, take it out of the Campground immediately as it is NOT to be left at your site. Because of power outages and plugs that have been accidentally unplugged, we suggest a minimum amount of perishables be left in the refrigerator.
- Seasonal Campers shall not use the campsite for any illegal activity or activity which would injure the reputation of the Campground, Owner of the Campground or any other Seasonal Camper.
- Children 17 and under are to be supervised by a responsible adult at all times. Camper's children's behavior is Camper's responsibility. Please advise all children of the Campground rules. Children need to comply with the verbal requests for the safety of themselves or others. Children are not to walk through other campsites. They are not to be off campsites after 11 p.m. unless they are with the parent or other responsible adult. An adult camper must supervise children 17 years of age and younger, staying overnight. All children must be supervised while in the shower buildings.
- No one under 21 is to be drinking alcohol in the Campground. Children of Campers are not to join company picnics in the picnic grounds unless invited by an official of the company.
- This property is privately owned and not supported by the government, only strictly controlled by it.

INSURANCE

RV Unit/Pet/Golf Cart/Boat: It is the responsibility of the Seasonal Camper to provide **comprehensive, liability, and flood insurance** on the RV Unit **at all times**. All RV Units must be maintained in roadworthy condition at all times. The Seasonal Camper will be held liable for any costs incurred by the Campground in order to make the RV Unit roadworthy.

Golf cart and/or boat owners must provide a *Certificate of Insurance* showing a minimum of \$100,000 liability. At the start of each year, Seasonal Camper's proof of an in-force insurance policy for the Seasonal Camper's boat and/or golf cart must be provided to management. Seasonal Camper will receive a sticker that will register the Seasonal Camper's golf cart. **This is the campers responsibility and not Austin Lakes, Inc to keep track.**

Pets: Check with your insurance carrier to insure your pets are covered by liability insurance. Shots must be current and verifiable to Austin Lakes, Inc. if requested.

GATE PROCEDURE

All Seasonal Campers and guests are required to stop at the gate and be acknowledged before entering the Campground. The Seasonal Camper is responsible to stop at the gate and pay for any guests with the Seasonal Camper. **It is your responsibility to stop and pay for any guests even if our staff starts to pass you through.** Display the blue Car Pass on the left side of the windshield. **Car Passes are non-transferable and if misused will be confiscated at the discretion of the Campground.**

On weekends and holidays the ticket booth may be open. If there is a line and if you have no guests to pay for, slowly proceed through the west, lake side of the gates Code 9119, stop, receive acknowledgement and then proceed. If you have a guest to pay for, remain in the pay line.

Magnetic swipe cards are available for a \$20 fee, not refundable, to open the gates for Seasonal Campers. They operate both sides of the entrance. Replacement cards are available for \$20. The card is not to be given or shared with non-seasonal campers or guests. Cards will be confiscated for improper use.

Note: If a Seasonal Camper is in arrears with payments, the gate card can be deactivated until payment or arrangements to pay are made.

GUESTS

Seasonal Campers' Guest Pass: If you have married children, unmarried children age 21 or over or parents, they may purchase a camping pass. These passes entitle the members to visit the Campground at any time or spend the night in the Seasonal Camper's RV Unit. These camping passes do not cover another RV Unit or tent in the lot. They must register for their own campsite and pay for camping even if it is on the same site. Prior approval is required. A tent is not to be used by an adult guest unless signed in as a camper unit – **NO exceptions.** If additional adults are guests and there is no room in the RV Unit and a tent is set-up for the kids, this constitutes an additional site. Tents may not stay up permanently.

Daily Guests of Seasonal Campers: Please inform/alert anyone coming to visit the Campground as a guest of the Seasonal Camper that there is an admission fee. We have a daily guest ticket available to purchase ahead of time and distribute to family and friends. Guests must leave by 11 p.m., unless registered as an overnight guest. Upon exiting, the gate will open automatically.

Pre-paying for Guests does not work well, since so many different employees operate the gate.

Overnight Guests: All overnight guests must be registered by 8pm If you have guests that wish to spend the night in your RV Unit, they must tell us at the gate when coming in and register. The campground must know ahead of time if someone is staying. Guests pay for each day, not the nights stayed. **Unregistered guests will be considered trespassing.**

Adding Buddy RV or Tent: If your guests wish to stay in a separate RV or Tent on your site, they need to get permission from management and make a reservation prior to arrival. They will be charged as an overnight campsite. For the purpose of making a reservation with the staff, the site is called a Buddy Site under the heading of Primitive in the reservation program.

Visitors After Hours: Guests are the Seasonal Campers' responsibility including guest fees and acceptable behavior. After hours, Seasonal Campers should meet the guest at the gate.

QUIET HOURS

- Quiet hours are from 11:00 pm to 9:00 am
- Confine all activity to the campsite.
- Mowing/weed eating/chain sawing are not permitted during these hours. Be considerate of the neighbors.
- No loud noise, voices, profanity, or obscenities including music from vehicles while driving within the park.
- No destruction of property or disorderly conduct.

RV UNIT & SITE SETUP

- RV Units must maintain 10' end-to-end separation and 15' side-by-side separation. We reserve the right to decide final placement of the RV Unit. Tip outs when extended are not to block the electric meter or be beyond your lot line.
- RV jacks are to be the sole support of the RV Unit. Pressure-treated 4X4 lumber, neatly cut or flat patio stones on the ground is to be used to support the RV jacks. **No cement blocks are to be used to support the RV Unit or are to be on your site.**
- Steps and step railings to the RV Unit must be made from pressure-treated wood or the new commercial RV steps. **No cement blocks are to be used for steps.** No deck railings are permitted. Site topography could warrant an exception with prior approval from Campground, otherwise, decks are to be ground level, which could include stepping the decks. **Ask Management first before any decks are installed or reorganized.**
- All structures or changes to campsites need prior approval, including for wood or plastic steps. Prior to work, Campground must approve any changes to sites, decks, walkways, sheds, structures, trailer placement, electric, TV dishes, telephones, etc. Campers must check with Management before any work is done. This is to eliminate any problems with utility/sewer lines and following camp rules. If digging occurs without permission from Campground, the Camper shall be responsible for the costs of any and all necessary repairs or replacements. The Campground is not responsible for personal injury or property damage that may result due to digging by Camper whether or not authorized.
- Wooden patio decks must be constructed in sections no larger than 4' X 8' and lay flat with the land. The material for decks, walkways, and steps must be new pressure-treated wood held together with hot-dipped galvanized or stainless screws or nails. We require 5/4" X 6" pressure-treated decking for the base. No new stone or brick patios may be built, all pre-existing must remain unless approved by Management to remove. All decks must have prior approval before installing.
- **Decks, if put together, are to be bolted and not screwed for easy removal. All thread works well.**
NOTE: Decks must be able to be removed in sections within an hour. It is the Camper's responsibility to remove decks if Campground needs to repair a waterline, electric, or sewer system.
- **You must provide your own fire ring.** It is your responsibility to keep your site neat and orderly and cut your own grass. Storage under the RV Unit must be kept to a minimum – no buckets, ladders, awning parts, or cans. The Campground has the option, if a lot needs attention, to maintain the site and charge the Seasonal Camper for the work at the cost of \$25.00 per hour.

- **Woodpiles:** Wood is to be stored in a neat and orderly fashion. Only tarps are permitted to cover woodpiles. **No roofs on woodpile holders.** Any questions see Bill Cable or Austin Cable. Keep the amount of wood stored so the site looks neat. Animals, including snakes, bugs and bees move into wood piles that have little or no activity. If you have wood over three seasons please get rid of it. **Pallets must be disassembled and stacked in one day.** Firewood is not to be stacked over 4 feet high nor stacked against electric pedestals.
- **Selling RV Unit:** Campers selling their RV Unit in the Campground can only sell their RV Unit, not the site. **(For Sale) signs are not to be displayed in the RV Unit or on the site.** An exception is made for a weekend camper. Post a For Sale sign on one of the bulletin boards with information. If you want your site to go with the RV Unit, prior arrangements must be made with the Campground. This is not always possible. It is not an automatic transfer and there is no guarantee the site will transfer. This is a decision of the Campground. If there is a storage building on the lot – No shed can be relocated or sold within the Campground without prior approval of the Management. Some buildings, if too old, in bad shape, and do not meet current specs will not be allowed to remain.

WATER/WATER TAP – PLEASE CONSERVE

The Campground has an EPA approved non community transient water system. The water is tested for Total Coliform bacteria each month during the season and Nitrate yearly and Nitrite every five years. The water is filtered to remove sulfur, iron, and micro-sediment. The filters are the regenerative commercial types. We are attempting to maintain a 0.5-parts per million free chlorine residual. The water source is from 5 wells and IS LIMITED. Usage must be conservative. Our water system complies with the laws and rules of the Ohio EPA, Ohio Department of Health and the Jefferson County General Health District.

- Well water quantity is limited.
- Please wash RV Units through the week, not weekends. No car/truck or other vehicle washing. Vehicles are not to be washed in any of the creeks.
- **During Power Outages -Do Not Use the Water.** Even though there is pressure temporarily. If water is used with the power off this will decrease the pressure causing the safety switch to turn off power to the pumps when the electricity comes back on. When this happens the pumps have to be restarted taking at least one hour per well.
- **The water system will be energized May 1st. The system will be winterized and drained on Oct. 15th. Selected Keyhole sites will be on later.**
- **RV is to have a backflow preventer on the water tap. Jefferson County Health Department has set this requirement. This is the Camper's responsibility. They are available for sale in the camp store.**
- Use potable water hoses (white) to the RV Unit. This is an Ohio Department of Health requirement.
- **NOTE: Turn water off at the water post when leaving to protect your RV.**

PARKING

Two cars are allowed to park at each site. Some seasonal sites have space for only one car. Do not park on other sites or empty overnight sites. Guests are to park in the visitors' parking lot if the camping lot is full.

- **Main Area:** Guests are to park on the lakeside of the Camper's pavilion or near the basketball court in Silk Stocking.
- **Turkey Foot:** Guests park on the hillside just across from lots 1-2 Turkey Foot.
- **Buzzards' Hollow:** Guests park in the field across from the lot by the restroom. Only two cars per lot.
- **Buzzard's Tail:** Guests park at the end across from 10 BT along the hillside.
- **Rodeo Drive:** Rodeo Drive sites 38 thru 49 can be used as additional parking for daily guest parking and not exclusive with your lot if the main parking lot is full.

New for 2026 STORAGE SHEDS

New sheds must be commercial manufactured plastic or Rubbermaid style only. Prior approval by Campground is required before building or delivery. Size is to be no larger than 8' X 8' and only one story. The base must be pressure-treated wood or the base of the plastic shed if it sits directly on the ground. **New for 2026, the shed base can be a single deck of pressure treated wood and decking.**

NOTE: Check with management first before purchasing a building and site location.

The design must be a barn-type or gambrel roof. Peaked roofs preferred. The base design must be able to be picked up by tractor forks. Building location must have prior approval from Management and the building is to be set on flat,

solid patio stones or pressure-treated wood. Electric wire to the shed must be underground (URL) wire, put in conduit, and easily removed. Outside cabinets such as the Rubbermaid products are acceptable and must be approved by Campground Management. In the case of any lot fixing by Campground, Campground will not be responsible for any damages done to Camper's wire assembly. This includes extension cords, water hoses, telephone lines, etc. Storage sheds are not to be used as housing. Do not leave valuables in storage sheds during the winter season.

- Golf carts are not to be parked in storage sheds, current ones are grandfathered.
- No shed is to be owned by two different seasonal Campers.
- Keep the area around Camper's shed neat, tidy and free from excessive "stash it beside/behind the Shed" syndrome.
- If trees need to be trimmed above the Camper's shed, it is the Camper's responsibility to move or protect the building before the trees fall or are trimmed.

EMERGENCY PROCEDURES

- **Call 911 for emergencies** then alert the office for additional help. The office can help guide emergency personnel to your location when they arrive. A courtesy phone is also available at the concession stand and at the phone booth by the Campers' Pavilion. Cell phones may be able to call the office at **(740) 544-5253** or call **(740) 317-8484, William, or (740) 317-9401** You may also go to the Cable house after hours for help.
- **Call Boxes:** They will call the office or 911 directly and are located at Shower #1, Keyhole (brown house), Buzzards' Hollow (brown house), and load center in Buzzard's Tail. Do not allow children to play with the call boxes as they call 911.
- **AEDs** are housed at the Concession Stand, Beach, Silk Stocking Shower #1 and Buzzards' Hollow Brown House
- **Announcements: Listen to announcements on the loudspeakers during an emergency for information.**
- **Semi-Emergencies or Disturbances:** Contact the main office in person or by phone. Do not hesitate to let us know if something is amiss. After hours during the summer you can call William Cable (740) 317-8484 or Austin Cable (740) 317-9401. **Reporting violations after the fact does not help. We need to know directly even if it is after hours.** An example might be a loose or constantly barking dog or after hours golf carts.
- **Courtesy Phone:** There are two, one by the 100-Ton Bigfoot Sand Pile in the phone booth and by the gate at the concession stand.
- **Phone Messages:** You should be able to use your cell phone for messages. In an emergency, we can deliver a message after hours if we are available.
- **High Water or Floods:** Due to heavy rains, the creek and lake may flood and the gates may be raised, including pre-releasing of water, putting additional water into the rising creek level. If possible, this will be announced during office hours. Please be advised that the creek can be very swift and can wash people and cars away. Do not attempt to drive through the creek during any high water. **Keep children and their bikes out of the creeks during this time.** Pay attention to creek crossings, creek depth and flooded roadways. Be careful crossing any bridges. If heavy rain is expected, creek sites must move their vehicles across the creek to safety. Preachers' Row, Town Fork, Silk Stocking, Buzzards' Hollow and Buzzard's Tail have flooded five times in 75 years. The Emergency Action Plan ("EAP") is on file at the office. The EAP is a plan of action if an emergency situation should arise with the dam. Evacuation could be necessary.
 - Note: Turkey Foot Campers, during a flash flood, do not attempt to walk or drive across Keyhole Creek. Emergency walkout trails are available. In the event of flooding, Buzzards' Hollow and Buzzard's Tail hillside lots can be used for temporary parking and camper storage without prior notification to the camper occupying those hillside lots.
- **Emergency Exits:** Large Campground maps are posted throughout the Campground showing the emergency walkout trails. Maps are at the concession stand, pavilion, Swan House, Turkey Foot and Keyhole. Familiarize your family and children how to use these trails in an emergency. An emergency car exit (without trailer), one lane, is located behind the Swan House.

ELECTRIC METER READING/BILLING PROCEDURE

Seasonal camper's sites are electronically metered and the camper is responsible to pay for their electrical usage. We will email electric bills through our CampLife reservation system. Meters will start to be read mid April, then monthly June thru October. Electric bills can be paid on-line. **Electric is due the 20th of each month. Electric bills paid after that date will be charged a late fee.**

New for 2026:

Please keep a credit card on file. If the bill is not paid by the due date the credit card will be charged.

Ground Fault Circuit Interrupter ("G.F.C.I."): These are special 120V, 20A outlets that you see in our electrical boxes, shower house and restrooms. All G.F.C.I.s have a test and reset button. A properly working G.F.C.I. is intended to stop the flow of electricity in fractions of a second if you happen to get shocked by something plugged into it. If you hear a click when using a G.F.C.I., you will notice that the power has gone out. Simply press the reset button and the power will be restored. Because of the sensitivity of these outlets, any amount of moisture or heavy electrical flow could cause them to trip. It is for this reason, that under no circumstances should your RV Unit be plugged into a G.F.C.I. It could click off during the week while you are gone and spoil all the food in your refrigerator.

NOTE: If the G.F.C.I. keeps tripping, there might be a problem with your equipment or improper use. Correct the problem. Alert William Cable, Austin Cable or staff at the concession stand if the problem persists.

NOTE: During the winter, unplug the RV Unit.

PROPANE TANK FILLING/PROPANE TANKS

Propane tanks must be inspected by law and be in safe condition for us to fill them. We can fill portable tanks by weight and RV Unit tanks by gallons. All propane tanks must be inspected after 12 years and must be re inspected every 5 years thereafter. (Tanks we believe to be unsafe will not be filled.) The weight must be legible on the tank. In most cases we can fill them during business hours. Please try to avoid Saturday and Sunday morning refills. Propane tanks may be prepaid and left at the propane station until someone is available to fill them. Please clearly label your tank with your name.

If the RV Unit has a place for propane tanks, then they are to be on the RV Unit and not on the ground. 100 lb. propane tanks are to be secured and are to be kept rust free.

DUMPING OF HOLDING TANKS, BLACK WATER, AND SEWER SYSTEM

All RVs: Note: The old saying, "If it has not been eaten do not put it in the tank." Feminine products of any kind are not to be flushed. Excess paper will block the tanks making it difficult to empty. Use ecologically safe tank prep materials, to keep the septic systems from failing. We keep several kinds available at the camp store. RV Units equipped with tank flushers are to have hoses disconnected after use and are not to be left on the water system.

Full Hook Up Sites: Hold black and gray water within your RV until the tanks are full, then empty the black water tank into the sewer system, then empty the gray water tank. This will help flush the sewer pipes. Do not leave the black tank valve open as this will fill your tank with solids.

LOT MAINTENANCE/CAMPFIRES/WOOD STORAGE

Garbage: Garbage collection is May 1 thru the first Wednesday in November. Dumpsters are located throughout the park. Do not bring garbage from home. **Do not leave beside or in the dumpster any decks, grills, tires, bikes, chairs, or junk metal.** Take it home with you. Do not dump grass clippings in the dumpsters or on the creek banks.

Recycling: A container is available for metal, glass, plastic (#1 & #2), and aluminum cans along with paper. Do not put trash in this container.

Campfires: All fires must be supervised by an adult. When selecting a campfire site, look up and try not to be under a tree where the heat will damage it. **Do not burn plastics** – it is very offensive to all nearby Campers. **Extinguish campfires before leaving the campsite especially in the fall.**

Trees: Do not put screws, nails or anything into the trees. Do not cut or mutilate any tree. If a tree is dead and could be a threat, alert management. Take down any clotheslines in the fall by Oct. 15th. Firewood cutting is permitted with prior approval. Cleanup will be the responsibility of the Camper.

Dams: Dams built in the creek must be removed when the season ends. High water will wash the dams out. If the shore is eroding, remove the dam. Management reserves the right to remove any dam at any time without notice.

GOLF CARTS

- One 4-wheeled golf cart per site. Golf carts may be electric or 4-cycle gas with a quiet muffler system. Always check ahead of time before purchasing a golf cart that is 10 years or older. **The cart must be approved by the Campground.**
- **A copy of the certificate of insurance, is required showing a minimum liability coverage of \$100,000. The certificate must list the camper's cart. A golf cart sticker will be given.**
- 5-mph speed limit. Children and pets could fall out of seats on sharp turns.
- The driver must have a valid driver's license.
- Unlicensed drivers, and children are not to drive the golf carts at the park.
- Overloading a golf cart is not permitted. All passengers must remain seated.
- Golf carts are to be used on the roads. Carts are able to go to the area just before the beach and may be parked on the spillway side of the beach with the brake set and keys removed. Beyond the Beaver/Turtle pond is off property.
- To ride at night, headlights and taillights are required. Golf carts are not to be out after 11 pm (quiet hours). If you are at another site after 11 pm you may take one trip directly back to your site. Go quietly.
- Driving any vehicle under the influence under Ohio law can result in Operating a Vehicle Impaired ("OVI") even on private property.
- Rental carts have slightly different rules.
- **Golf cart privileges can be revoked.**

PETS

Pets are welcome. All pets must be registered with the Campground upon registration. All pets must be **kept on a leash, including while on a golf cart**, no longer than 6 feet or tied and under the owners' control. They are not to be loose. Pet cleanup is a must. Pets must be attended to at all times. **Pets are not to be left unattended in RV Units or on site.** Pets are to be quiet. If your dog is a barker, please take them home. The Campground, without notice, reserves the right to limit the number of pets of any kind. **Absolutely no aggressive or vicious animals are permitted in the Campground.** All inoculations are required for the pet to be in the Campground. Electric fences are not acceptable for sites as pets are to be leashed. No dog boxes are to be on your site unless it is a commercially constructed portable unit. The Campground reserves the right to say where any pet is to be kept and cage/house is to be located. The cage size is to be a *commercial* transportation size. Pets must be covered by your liability insurance of \$100,000 minimum. **If your pets are not cared for in compliance with these terms and conditions, the Campground may ask you to remove the pet from the Campground at any time. If you choose to leave the park, no camping refund will be issued.**

PET FENCES: Pet fences must be approved by management and must be removed when leaving the campground for a day or more. **Dog fences must be temporary and not to be left up or permanent.**

BEACH

The beach will be open from Memorial day through Labor Day. The beach may close due to weather conditions, high water or staffing. Beach rules are posted at the beach. Beach attendants and any other Campground employee have the authority to send individuals off the beach for not following the posted rules, or verbal requests. **A parent or other responsible adult must accompany children under 12 years of age – the beach attendant is not to be babysitter.**

FISHING/BOATING

Fishing: Fishing is included in the camping fee for the two ponds and out the gate at what is known as "The Beaver Pond." Please do not fish from other campsites without permission from that camper. Observe the private "No Fishing Beyond this Point" signs as well as the "No swimming" notes at the ponds.

The lake is a pay lake (An Ohio Fishing License is not required) Lake fishing is available for a fee by the season or day. See price sheet. There are limits on the number, size and species that can be kept. You may fish in Austin Lake only from designated fishing docks or a boat, not from shore. **Night fishing in the lake is not permitted, but the three ponds are acceptable for night fishing.**

Boating: Season boat memberships are available to the Camper family. This includes use of the lake for fishing by eligible family members and putting one boat, or 2 kayaks or 2 paddleboards in the lake. **Kayaks and paddleboards can be kept at Camper's site.** No swimming from docks or boats. Any guests fishing must purchase a fishing permit from the office daily. No night fishing is permitted, but cruising at night is permitted with the use of ODNR required lights.

Boat engine limit is 25 horsepower. One personal floatation device ("PFD") is required per person to operate a boat in the State of Ohio. PFDs must be worn by children under 10 years old. **A certificate of insurance must be filed with the Campground with a minimum of \$100,000 for boats.** No one born after January 1, 1982 may operate a boat of 10 hp or more unless they have successfully completed a boating safety course approved by the State of Ohio. The course is available at www.ohiodnr.gov.

Docks: Dock space may be available. Seasonal Campers with boats may park vehicles (golf carts recommended) near their dock, **if space is available. No guarantee of a parking space at the boat dock. This is on a first come first serve basis. No parking guaranteed except at the roofed rental dock.**

RIDING IN THE PARK

We realize that E-bikes and E-scooters are becoming very popular. We are concerned about the speed and potential risk they pose for our community, pedestrians, drivers of cars, trucks, golf carts as well as the riders themselves. At this time we have not restricted the use of these new E-vehicles. We suggest that E-vehicle riders wear helmets. Riders must obey the posted speed limits. We reserve the right to take these privileges away for excessive speed, reckless driving, failure to obey verbal requests, repeated requests to slow down, or rude behavior. Parents should closely monitor their children while on these new vehicles.

Types of E-Bikes

- "Class 1 electric bicycle" means a bicycle that is equipped with fully operable pedals and an electric motor of less than 750 watts that provides assistance *only when the rider is pedaling* and ceases to provide assistance when the bicycle reaches the speed of *20 miles per hour*.
- "Class 2 electric bicycle" means a bicycle that is equipped with fully operable pedals and an electric motor of less than 750 watts that may provide assistance *regardless of whether the rider is pedaling* and is not capable of providing assistance when the bicycle reaches the speed of *20 miles per hour*.
- "Class 3 electric bicycle" means a bicycle that is equipped with fully operable pedals and an electric motor of less than 750 watts that provides assistance *only when the rider is pedaling* and ceases to provide assistance when the bicycle reaches the speed of *28 miles per hour*.
 - **Per Ohio law:** You must be at least 16 years of age to operate a class 3 E-bike. Anyone riding a Class 3 E-bike is required to wear a helmet.
- **E-Bikes and E-scooters** (stand on platform type) are acceptable for the park. Children 11 and under must have adult supervision with them and helmets are suggested.
- **Bicycles & Scooters:** We suggest that all riders in the Campground wear helmets. Riders are to stay on the roads. Do not ride in the picnic area, down the dam hill, or in the Campers' Pavilion. Bike riders are welcome to ride the trails. Stay 20 feet behind maintenance equipment, fire trucks or hayride. Teach your children to obey the rules of the road and traffic safety. **Night riding is permitted with headlights. All bikes and scooters must obey the 5 mph speed limit.**
- **Gas-powered scooters** are **not** permitted in the Campground, unless it is a licensed motor vehicle
- **Kiddie Cars** are permitted and to be kept on the camp site under direct adult supervision
- **Motorcycles:** Motorcycles can be used as transportation. All motorcycles must conform with the State of Ohio laws, including a motorcycle license endorsement for the driver, current license plate and insurance.
- **Speed Limit:** 5-mph at all times. Give pedestrians, bikes and pedal karts the right of way. No cruising in the Campground. Vehicles are not to be driven in the creek beds except at creek crossings. No unlicensed drivers are permitted to drive vehicles or golf carts in the Campground.

MISCELLANEOUS

- **Alcoholic Beverages:** Drinking of alcohol must be in moderation. You are responsible for guests at your site and their behavior in the Campground. No alcohol is permitted at the beach.
- **Illegal Substances:** Absolutely no illegal drugs are allowed or are to be used in the Campground. Immediate eviction will occur. You are responsible for your guests' behavior.
- **Weapons:** BB guns, pellet guns, paintball guns, crossbows, compound bows, sling shots, or any device similar are not permitted in the Campground.
- **Fireworks:** Are **PROHIBITED**. Do not set off fireworks or aerial displays in the Campground.
- **Troll Bridge (Swinging Bridge):** The bridge is for the use of guests and Campers for the sites across the creek. Do not jump or allow children to play on the bridge, it can overstress the bridge and cause failure. No more than 3 people at a time on the bridge. Children are not to be on the bridge unless supervised by a responsible adult.
- **Bigfoot's Big Wagon Ride:** Children under 10 are to be watched. Wagon pick-up sites: Campers' Pavilion, Silk Stocking by the restroom, Shower 1, Barn, Buzzards' Hollow, Buzzard's Tail, and Keyhole. Hayrides are for the registered Campers and their guests and not for daily picnic ground guests. The stops are marked.
- **Overnight Campsite Usage:** RV and Tent set up rules may be slightly different for overnight campsites.
- **Communication devices:** TV, WIFI, Starlink installed by the Camper are the responsibility of the Camper. The lines are to be underground but can be just under the surface. When any construction is occurring by the Campground and the wires are cut, it is your responsibility to fix them. Any antenna or receiver is to be on your lot only.

ABANDONMENT OF PROPERTY: OHIO REVISED CODE § 3733.082

Vehicles: In season, any vehicle left unoccupied on an unpaid site, without prior written authorization from the Campground will be deemed to have been abandoned. Any vehicle not removed from the Campground within 48 hours after the last day of the season without prior written approval from the Campground will be deemed abandoned. Camper understands that any abandoned vehicle or vehicles can and will be towed to a storage facility on premises at the expense of the Camper. Camper further understands that any titled vehicle will be disposed of at the Camper's sole cost. Campground reserves the right to dispose of the vehicle in any way it deems appropriate including, but not limited to, the following options:

1. If the vehicle has been unoccupied for 5 consecutive days after the term expires defined in the Campsite Use Agreement, the Campground may file an action for the seizure of the remaining property with the appropriate municipal court pursuant to ORC 3733.082. The Camper shall remove all property and answer within 7 days after service of said actions. Failure to do so will result in the court either issuing an order authorizing the sheriff, another peace officer, or a bailiff, to remove the property from the campsite and place it in storage or authorize the Campground to seize the property and cause issuance to the Campground of a new certificate of title for the property if the property is a titled vehicle.
2. Once the vehicle is in the storage facility for at least 15 days, the Campground may obtain a certificate of title so long as the value of the property, after the deduction of storage and clean up fees, is less than \$2,500, pursuant to ORC 4505.101.

Other Property: Any property left at the campsite upon the conclusion of the Campsite Use Agreement term, including but not limited to sheds, porches or personal items inside the vehicle, will be deemed abandoned. Camper hereby acknowledges and consents to Campground disposing of any personal property left behind in any manner the Campground sees fit, at the Camper's cost.

Storage Fees: Any vehicle abandoned on the campground will be assessed a storage fee which is to be calculated from the day of abandonment. The fee will be \$8 per day for vehicles 1,500 lbs or under and \$12 per day for vehicles over 1,500 lbs.

FAILURE OF CAMPGROUND TO ACT

Failure of Campground to insist upon compliance with the terms of this Agreement shall not constitute a waiver of any violation. No waiver by the Campground of any provision of this Agreement shall be deemed a waiver of any other provision hereof or of any subsequent breach by Camper of the same or any other provision.

IRRECONCILABLE DIFFERENCES WITH CAMPGROUND

Admission and use of the site is at the sole discretion of the Campground. The Campground may determine, for any reason in its sole discretion, that it is necessary for the Camper to leave the premises prior to the scheduled end of the Campsite User Agreement term. In such an event, the Campground will direct Camper to leave the RV Unit and the campground. The Camper will be given one (1) day to cease to occupy the RV Unit and the campground and five (5) days to remove the RV Unit from the campground. In the event of a disturbance of the peace and order by the Campground, the Campground reserves the right to require the Camper to leave immediately.

The Campground hereby reserves the right to refuse admittance to any and all persons and reserves the right to remove any and all persons from the park for any violation of the rules and regulations. Registering for a campsite entitles the registered Campers and guests to the use of the campground's facilities with the understanding that Camper, Camper's family and guests obey all rules and regulations established by the Campground. Any photography or video taken with the campground may be used for promotional purposes. We reserve the right to change or add rules, ad hoc, at any time without notice that the Campground deems necessary for the safe operation of the campground and the overall enjoyment of all campground patrons.

IMMUNITY FROM LIABILITY FOR AGRITOURISM PROVIDERS OHIO REVISED CODE § 901.80(D)

WARNING:

Under Ohio law, there is no liability for an injury to or death of a participant in an agritourism activity conducted at this agritourism location if that injury or death results from the inherent risks of that agritourism activity. Inherent risks of agritourism activities include, but are not limited to, the risk of injury inherent to land, equipment, and animals as well as the potential for you as a participant to act in a negligent manner that may contribute to your injury or death. You are assuming the risk of participating in this agritourism activity."

RISK INHERENT TO CAMPING

WARNING:

Under Ohio Law, there is no liability for an injury or death of a camper or visitor to this campground if that injury or death results from the risk inherent to camping. Inherent risks to camping include, but are not limited to, the risk of injury inherent to land features, equipment, animals, or the negligent actions of the camper or visitors. You are assuming the risk of participating in camping.

FORCE MAJEURE

Campground shall not be held responsible for any non-performance or loss of use by Camper that results in whole or in part from or made impossible or impracticable by any cause beyond the control of Campground, including, but not limited to, fire, explosion, accident, breakdown, strike, adverse weather conditions, shortage or lack of material, fuel, power, transportation media, embargo or any act of God or action or request of any governmental authority, pandemic, government mandated shut-down, failure or refusal of any contractor, any contingency or delay or failure or cause beyond Campground's control.

ACKNOWLEDGEMENT AND RELEASE

Camper hereby acknowledges the campground and cabin areas are natural habitats with many obvious hidden dangers, including but not limited to falling limbs, poison ivy, sun exposure, and animals, both natural and domestic. Despite these dangers, Camper hereby accepts all risks. Further, Camper hereby releases the Campground and its shareholders, management and heirs for any present or future claims, **INCLUDING A CLAIM FOR NEGLIGENCE**, for property damage, personal injury or death arising from Camper's participation in all camping activities. If Camper's site becomes unusable due to naturally occurring events the Campground will offer a lot of equal value, if available, but no refund will be issued.

May the 2026-2027 season be superior for your family and enjoyment of the park.
